Aspiring to significantly contribute to the Information Technology/Software space through continuous development of knowledge, talent and skills.

Brief Overview

- Dynamic & techno-savvy Professional with **3.10 years of hands-on experience** in analyzing Business Requirements and Software Development. Presently performing in the capacity of **SOFTWARE ENGINEER WITH CYBAGE SOFTWARE. (INDIA)**.
- Talented & technically-astute, with expertise in code reviews for best optimization of code and experienced in Development and Integration of software modules.
- Highly versatile and experienced in adapting and implementing the latest technologies in new application solutions. Able to work adaptively in team as well as individually.
- Highly motivated, enthusiastic & thorough professional, with proven correctness & credibility in congruence with capabilities of working on own initiative with a systematic approach & a single-minded dedication towards the task at hand.
- Logical and strategic appreciation; able to build and implement sophisticated plans, Strong analytical and logical skills – probing and resourceful.

Skills Set

Operating Systems	Windows , LINUX(Ubuntu, CentOS)
Programming Languages	PHP
Web Technologies	HTML, CSS, JavaScript, Some knowledge of AJAX & JQuery
Framework	Drupal (CMS), Drupal, Joomla, WordPress, CiviCRM (Module in Drupal and as a Component in Joomla), SugarCRM
Server Technology	Apache Tomcat, Apache Solar
Technology	Google Analytics, Kiss Metrics, APIGEE
RDBMS	MySQL

Area Of Works

- Working knowledge on **Drupal, Joomla, WordPress, Core PHP**.
- Have experience in module/component customization in Drupal / Joomla.
- Working knowledge of **CiviCRM, SugarCRM** .

- Working knowledge of **Apache Solar** Indexing and it's Schema and having knowledge of apache solar query, facets etc.
- worked on php technologies with object oriented implementation through MYSQL , JavaScript, JQuery, Ajax and CSS.
- Good Knowledge of OOPS concept.
- Worked on various Live projects with having Drupal, CiviCRM , Joomla and Apache Solar.
- Have configured two **payment processor** on project and worked with them.
- Worked with **Web-Services** in Drupal. Developed custom module for Drupal login, create account, getting user details etc with using Web-Services.
- worked on APIGEE ,Google Analytics, kiss metrics, bootstrap theme.

Professional Experience

Cybage Software
From Aug 2014 to Jan 2016
Software Engineer

Project

Title	Tealsk (Microsoft)
Client	Microsoft
Framework	Wordpress
Technologies	LAMP (Linux, Apache, MySQL, PHP), Google Analytics
Description	Help partner high schools build sustainable computer science programs so that they will be able to offer CS programs on their own and provide access and exposure to computer science course for students who otherwise do not have a pathway to study CS.
Responsibility	Setup wordpress CMS, Installed plugins, created post and pages, modified templates, configured google analytics.
Ref.URL	http://www.tealsk12.org/

Title	TravelClick
Client	TravelClick
Framework	Drupal
Technologies	LAMP (Linux, Apache, MySQL, PHP), Google Analytics
Description	TravelClick provides innovative solutions for hotels around the globe that increase revenue, reduce cost, and improve performance. Our suite of solutions supports our clients with travel marketing and reservationsmanagement tools, as well as comprehensive business intelligence. TravelClick has a worldwide on-the-ground presence that enables us to maintain a deep understanding of local markets in the context of the global hospitality industry.
Responsibility	Created custom module for video solution functionality. Worked on views, multiple language, created template file etc.
Ref.URL	http://www.travelclick.com/

Title	Flipkart Seller Portal (Learning Center)
--------------	-------------------------------------------------

Client	Flipkart
Framework	Drupal
Technologies	LAMP (Linux, Apache, MySQL, PHP), Apache Solar, Google Analytics, Kiss Metrics
Description	This is a learning center for sellers, with the help of this seller can know the information about seller portal of flipkart. This project has FAQ, Categories landing page, customize dashboard for flipkart's seller, Assessment for sellers, Events for sellers, overview section etc. Basically Flipkart will upload videos, Article, Slide share, Text tutorial to this portal, which will help to sellers to know about how to sell product, payment method etc.
